America’s Largest Medicare and Private Insurance Provider for Mastectomy Fashions.

An Accredited Medicare Provider.
Liberator Fashions is the largest Medicare and private insurance provider for mastectomy fashions in the United States. We offer the most complete Medicare and private insurance support available today. Liberator Fashions is a division of Liberator Medical Supply, Inc. an authorized and Accredited Medicare Provider. This means we maintain the highest quality standards required by the federal government’s Centers for Medicare and Medicaid Services.

Unlike most other mastectomy fashions retailers, this allows us to accept direct Medicare assignment, as well as most private insurances. Our extensive private insurance network includes most preferred provider insurance plans. So when you call Liberator Fashions to place your order, you’ll have the most experienced and professional insurance service and support available today.

Little or No “Out of Pocket” Cost.
We can verify your insurance coverage for the products you choose on your first call. We contact your doctor for the required physician’s order to obtain all required information and authorizations. We will prepare and process your Medicare and insurance forms and paper work and submit the claims for you. Since we are authorized to accept direct assignment, we can take the responsibility to get reimbursed. So, you’ll never have to pay for your entire order in advance by cash, check or credit card and have to wait, sometimes months, to get reimbursed. In fact, if you are covered by Medicare and have secondary insurance coverage and your deductible is paid, you may have no out of pocket costs at all. At Liberator Fashions, we do everything we can to make your shopping experience easy and enjoyable.

Our Standards of Operation
Liberator Medical Supply, Inc. takes pride in conducting its business to the highest standards and subscribing to all of the supplier standards established by Medicare’s certification standards called the HCFA Medicare 30 Supplier Standards. Every Medicare DMEPOS supplier must meet these standards in order to obtain and retain their business relationship and billing privileges with Medicare. These standards in their entirety are listed in 42 C.F.R. pt. 424.57 © and are effective as of December 11, 2000.

Ordering Information
*Your 5 Easy Steps...*

1. **You Make Your Selections.**

Look through our catalog and select the styles that you like. Feel free to refer to our fitting guides, helpful hints and tape measure. See page 65 for specific reimbursement information. Keep in mind, Medicare and/or private insurance covers the cost of your mastectomy fashions order. As an approved Medicare Provider, Liberator Medical specializes in doing all your paperwork, from coordinating with your doctor to processing your Medicare and insurance claims so you pay little or no “out-of-pocket” costs for your catalog purchases. And, if you have Medicare and supplemental insurance, you may pay nothing at all. Of course you may still be responsible for your deductible and any charges not covered by Medicare or your insurance company.

Also, note that when we coordinate payment from Medicare or your insurance company for the items you order, we accept only the allowable payment amount structured by Medicare or your insurance company, regardless of what our costs are for any item you order.

2. **You Place Your Order.**

Call us Toll Free at **1-866-244-3809**. Our certified & trained fitters are here to help you every step of the way! Or, if you prefer, use the order form in the middle of the catalog and mail it, with the enclosed envelope, or fax it back to us. Be sure to sign the Assignment of Benefit (AOB) form on the back side of the order form. This allows us to accept payment from Medicare or your insurance company for the items you order. We’ve even included a convenient postage paid all-in-one return envelope and order form for your completed, signed AOB and/or your order form, or, you can fax us Toll Free at 1-888-261-1133.

**You Can Pay Cash.**

If you don’t have Medicare and/or insurance coverage, you can pay by credit card, money order, or check by phone. Simply make your selection and enter your styles on the enclosed envelope order form. Be sure to complete all the required information. You can send in your order and a Mastectomy Fashions Specialist will call you to present pricing. Be sure to fill in your day time phone number on the order form. Or, you can call toll free **1-866-244-3809** between Monday - Friday, 8:30 AM to 9 PM and Saturday 9 AM to 3 PM (EST) and a certified & trained fitter will review your order and present your pricing. Frequently Asked Questions

Q: Why are some cups smaller or larger than my breast or prosthesis?

A: Each bra has its own “fit” which is shown under the style number such as shallow, average, average to full and full. Refer to Breast Shapes in the back of your catalog or call one of our trained & certified fitters and they can help you select the one’s that are just right for you.

Q: Why should I wear a breast form?

A: Uneveness in the breast due to a single mastectomy or lumpectomy may lead to neck and back pain due to unbalanced weight. Even those who’ve had bilateral surgery should wear prosthesis in order to replace the weight and shape that has been lost.

Q: How long after surgery do I need to wait to get my prosthesis?

A: This would depend on your Doctor’s recommendations, normally it is 6-8 weeks, but you will want to consult with your doctor.

Q: How do I know what size form I’ll need?

A: The size form will depend on your bra band and cup size. Each manufacturer has a chart we use to determine the size of the prosthesis needed.

Q: Is there something I can wear immediately after my surgery?

A: Yes, there are post-op cami’s available, however you would need to consult with your doctor to assure he/she would allow this.

Remember to use your FREE Liberator Fashions tape measure to get that perfect fit.
Use the steps below to help you find your ideal size. If you have any questions about your size please don’t hesitate to call us at 1-866-244-3809. Our staff is experienced in assisting you with fitting mastectomy bras and we would be glad to help you through the process.

Step 1 – Your Bra Size

Under Bust Measurement: With a measuring tape, measure directly under the bust, following the dotted guideline #1 in the picture. Position the tape tight around your body and level across your back. If the number is 35 or lower, add 5 inches if odd or 4 inches if even. If your number is 36 or more, go up to the next even number.

Step 2 – Your Cup Size

Over Breast Measurement: With a bra on, following the dotted guideline #2 in the picture, gently measure around the fullest part of your remaining breast from the center of the sternum (breastbone) to the center of your spine. Double this measurement. Based on the difference between this measurement and the measurement in Step 1, you can determine your size using the Cup Sizing Chart.

Example: The Under Bust Measurement from Step 1 is 36 inches. The Over Bust Measurement from Step 2 is 19 inches and by doubling this, you come up with a total Over Bust Measurement of 38. The difference between the Step 1 measurement of 36 and Step 2 Measurement of 38 is 2 inches. As indicated in the Cup Sizing Chart, a 2 inch (2") difference equals a B cup.

Medicare & Private Insurance Reimbursement

Liberator Fashions is America’s largest Medicare and insurance provider for mastectomy fashions. We’re authorized to accept reimbursement for you. We can take care of all the paperwork and even process your billing, often for little or no “out of pocket” cost.

Generally, Medicare will reimburse 80%* of:

- One silicone form, or two for bilateral, every 2 years
- One leisure form, or two for bilateral, every 6 months
- Bra quantities are based on medical necessity
- Post-op camisole quantities are based on medical necessity
- One Nipple every 3 months or two for bilateral

The remaining 20% that Medicare does not reimburse can be covered fully or in part by secondary insurance coverage.

* If your Medicare deductible has been met.
Breast Form Shapes

A. **Symmetrical Triangular** shaped forms can be worn on either the left or right side. These shapes are designed to suit most contemporary, modified radical surgical techniques, where less breast tissue is removed.

B. **Symmetrical Teardrop, or Pear shapes** are suitable for women whose surgeries remove some tissue under the arm or toward the upper part of the breastbone toward the collarbone. The teardrop has an extension which can be angled for the best fit. This shape can also be worn on either the left or right side of the body.

C. **Symmetrical Heart shapes** fill the cup without unnecessary bulk when no tissue near the armpit has been removed in surgery.

D. **Asymmetrical shapes** reach under the arm to help balance every area that has been affected by a more radical surgery. Underarm extensions fill and blend where surgery has removed substantial tissue.

Natural Breast Shapes

Our experienced staff is dedicated to finding that great fit. There are three distinct profiles to describe breast shape: shallow, average and full. The profile type is not dependent on cup capacity. For example, a D cup can have a shallow profile and an A cup can have a full profile. By understanding each profile, you can be assured you get the best fit possible.

- **Shallow**
  The breast tissue drapes in the lower cup of the bra and is often seen on the mature woman with soft breast tissue. A shallow profile requires a bra with a large bottom cup and a small upper cup.

- **Average**
  There is an equal amount of breast tissue on the top and bottom of the breast with a more round appearance in the upper cup area. Average profile women usually have firmer breast tissue and a round profile.

- **Full**
  The most round appearance and requires a bra that provides bottom cup support, upper cup support and coverage. Full figure bras are designed for comfort with maximum coverage and support.
